EXPERIENCE

Full-Stack Engineer
2025 — Present

Independent / Individual Practice

Building independent full-stack products and delivering custom software for clients — requirements, architecture, development, deployment, and ongoing support across web, mobile, and cloud.

Focus: Full Stack · Product · Client Delivery

Freelance Full-Stack Developer
2023 — 2025

INNOSEC — Managed IT (UK / Ireland)

Delivered web platforms and integrations for a security-first managed IT partner serving professional services firms. Supported proactive managed-service workflows, cloud-aligned portals, and client-facing experiences.

Stack: Next.js, React, MySQL, PostgreSQL, Google Cloud, Meta Developer, AWS, Azure

Project Owner
2023 — 2025

Magikkraft — Construction Intelligence

Owned product and engineering for an AI-powered construction monitoring platform using drones, 360° imagery, and digital twins to deliver Transparency, Speed, and Quality (TSQ). Enabled real-time remote visibility, early defect detection, and analytics for developers and contractors.

- Impact: 100% faster inspections · 85% reduction in rework · 30% faster project deliveries

Stack: Python, Next.js, React, ODM, PostgreSQL, MongoDB, AWS, Azure

Project Manager / Full-Stack Lead
2021 — 2023

RestoSoft (eresto) — Restaurant Management Software

Led Android, web, and DevOps delivery for a complete restaurant suite: POS & billing, QR digital menu, Captain & KDS apps, queue, inventory, and CRM for Indian restaurants.

Stack: Laravel, JavaScript, HTML/CSS, MySQL, Android, AWS · **Product:** eresto.in

Senior Tech Developer

2017 — 2021

Pandit Ventures — Astrology & Consumer Apps

Built and scaled astrology consumer platforms (consultations, kundli/horoscope, chat & call) with Laravel backends and native Android (Kotlin) / iOS (Swift) clients, plus MySQL/MongoDB and multi-cloud DevOps.

Stack: Laravel, JS/HTML/CSS, MySQL, MongoDB, Android, Kotlin, iOS/Swift, AWS, Azure · Reference domains: GaneshaSpeaks, Astroyogi

Android Developer

2014 — 2017

WDWIL Inc — Service-Based Custom Software

Delivered custom Android applications for diverse clients — translating requirements into native mobile experiences, integrating APIs, and shipping maintainable client-specific solutions.

Stack: Android, Java, Custom Software Delivery
